THE WOODPECKER

STOP PRESS

Relocation Update

Another **Stop Press** notice. **Sessions will continue at the Besgrove Street workshop until Friday 28th June.**

On Monday 24th June, the council will present John Bayliss with the keys to the club's new home. The "factory" will belong to the Woodworkers of the Southern Peninsula with a 5x5x5 year lease.

There are no more false alarms or delays to the relocation.

Current activities & plans are:

- The floor is being painted on the 21st June but we will not be allowed to walk on it till Wednesday 26th.
- From the 1st July members will recommence packing. On completion contractors will move all machinery to the new work shop.
- Some members will install the kitchen.
- Ducting contractors will be invited back to connect the machinery ducts to the ducting system.

On the 13th July from midday to 1.00pm there will be a BBQ at the Besgrove St workshop where members will have ample opportunity to take plenty of photos and bid farewell to the site. After 1.00pm John Bayliss is inviting everyone to the Vern Wright Reserve workshop to inspect WoSP's new home.
