## Barrels for Sale

Recently Syd Johnson acquired 9-10 full barrels of varying condition. The diameter of the barrel at the top is 600mm & the height is 880mm, so they are big barrels. Some barrel leaves & rings were also obtained.

In the interest of selling the barrels quickly it is intended to sell full barrels; in other words there are no half barrels. If you want a half barrel you need to be prepared to cut the barrel yourself. You may want to buy a full barrel with someone else, cut the barrel in half & have half each.

You will find the pricing of the barrels very cheap considering the size. The good full barrels are \$90, while the not-so-good barrels are \$70. The barrel leave are \$3 each & the barrel rings are \$10 each. **Please Note: Some barrels have already been sold.**

Wine Bottle Carrier, Wall Clock, ¼ planter box, Firewood Holder, Bottle & Glass Storage, a lighting feature, a wall feature & a chair

done with the barrels including a

The remaining barrels will be available for sale on Saturday Morning 29<sup>th</sup> January.

Most people think of barrels & planter boxes; however after checking “pinterest” you can see many other projects that can be components of the cheese board. 3 leaves

glued together make a classy platter that can present your cheese & biscuits.
